

"I believe that a great education, access to affordable healthcare, a strong economy and a clean environment are the four cornerstones of a great State of Wisconsin."

- Alison Page

STATE SENATE

Building a great State of Wisconsin

As a lifelong resident, I know that Wisconsin is a great state. I'm running for the Senate to make sure that it remains as great for our children and grandchildren as it has been for us.

As many of you know, I've spent my life working to improve our community:

- Over two decades as a health care administrator and registered nurse working to improve the quality and accessibility of health care.
- 17 years on the School Board working to provide the highest quality education in the most cost-effective way.
- Wife of a small business owner who knows what it takes to bring jobs to our region and strengthen our economy.
- Mother of 5, who will protect of our natural resources and preserve our Northwestern way of life for future generations.

Now I want to take that experience to Madison and be a strong voice for you in the State Senate.

I hope to meet you over the next five months on the campaign trail. I'm eager to hear about the issues that concern you and to tell you about my plan to ensure that we will always have a great State of Wisconsin.
